

# Standalone

## AC-3300 Standalone 2 Door System

# PRODUCT INFORMATION

The AC-3300 is a standalone system which can control up to two doors.

The controller has an on-board memory which stores up to 2000 card / tag holders and is programmed with a master card (supplied).

The system database can be uploaded / downloaded via the memory stick (supplied). This enables the same database to be copied to multiple controllers.
